

# World Long Gone

## Scars On Broadway

Sometimes, I said sometimes  
I go crazy like I'm crazy  
It takes patience, lots of patience  
Then it's over, fucking over I look at the sky faded  
I read the stars Maybe I don't know  
How many people are starving  
In this world long gone Sometimes, I said sometimes  
I go crazy like I'm crazy  
It takes patience, lots of patience  
Then it's over, fucking over I look at the sky faded  
I read the stars Maybe I don't know  
How many people are starving  
Maybe I don't know  
How many people are starving  
In this world long gone I look at the sky faded  
I read the stars Maybe I don't know  
How many people are starving  
Maybe I don't know  
How many people are starving  
In this world long gone
