

# Look At Me Now

## Rags Cast

Oh x3  
Beauty in the mirror  
See what I see  
I can see all that you want from me  
I hear something strong and  
It's sounds like my name  
But if I answer  
Are you talking to me You say the sun's brighter  
The moonlight's behind ya  
The world a playground  
Pick a ride and you'll see  
Sometimes you'll go up and  
Sometimes you'll go down and  
Sometime you must fly so that you can be free When you feel you took your last breath  
I promis you got more left  
There's a chance if you'll just take it  
Don't be afraid to just say it Look, look at me now  
I'm starting to be stronger  
There's no time to stop now, no  
Oh, I'm touching the clouds  
I'm flying higher and higher  
I'm not trying to come down  
Can you look at me now x2  
Nothing's impossible  
The spark is in you  
Light up the whole world and just  
Look, look, look at me now Yesterday's gone now today's a new day  
Tomorrow's my future and it starts here today  
The beauty inside  
Is coming alive  
So happy it did When you feel you took your last breath  
I promise you got more left  
There's a chance if you'll just take it  
Don't be afraid to just say it Look, look at me now  
I'm starting to be stronger  
There's no time to stop now, no  
Oh, I'm touching the clouds  
I'm flying higher and higher  
I'm not trying to come down

Can you look at me now x2  
Nothing's impossible  
The spark is in you  
Light up the whole world and just  
Look, look, look at me now When I look up at the stars  
Even though they may be far away  
It's ok, I can reach them  
Won't ever change who I am  
I'll make the world understand  
Me from beginning to end, to end Oh look, look at me now  
I'm starting to be stronger  
There's no time to stop now, no  
Oh, I'm touching the clouds  
I'm flying higher and higher  
I'm not trying to come down  
Can you look at me now x2  
Nothing's impossible  
The spark is in you  
Light up the whole world and just  
Look, look, look at me now
