Shallow

Unbroken

You seized more than words you stole a part of me,
freezing my sureness and ability to trust,
when we're apart you just betray me,
now your malevolence is all we share,
you cast forth an image of someone who cares,
but your words twist and never seem sincere,
I search to find a kind of truth about you,
only finding you using self indulgence as a tool,
I don't want to see any part of you in my self,
I'm rebuilding what you took,
and I'm trying to care again, try to distance yourself,
and dismiss what we shared,
shattered someone else feelings all over again,
shallow is the way I think of you, and I wish it would end!
