

# The Game Is On

David Arnold & Michael Price

Have you seen this little toy?  
When you're down it gives you joy  
You escape reality  
Delve into it's TV screen For the rich and for the poor  
For the even more secure  
Doesn't matter where you are  
Where you go or where you've been Well, there's still no guarantee  
For your virgin mind you see  
Just go on and play the game  
You will surely go insane The game is on and you have gone  
Gone to a world on its display  
And the game is fun but when it has won  
All you ever hear is what it says There's a great amount of fumes  
Coming out from somebody's rooms  
The firemen got there  
Making their way up the stairs Find a man in a chair  
But it doesn't seem he's there  
With a gray box in his hands  
He has gone to another land The game is on and you have gone  
Gone to a world on its display  
And the game is fun but when it has won  
All you ever hear is what it says You have played it much too long  
Now your senses get things wrong  
All your walls come crashing down  
Now it's time for you to frown How'd you like this heavy load?  
Guess your brain will soon explode  
You never had this ugly feel  
Time to die, emergency! The game is on and you have gone  
Gone to a world on its display  
And the game is fun but when it has won  
All you ever hear is what it says The game is on and you have gone  
Gone to a world on its display  
And the game is fun but when it has won  
All you ever hear is what it says The game is on  
The game is on  
The game is on
