

Be With You

The Bangles

Out my window, the rain starts to fall
And the wind blows, through an empty hall
In the mirror, reflections of you
In the distance I hear a sound
Is that you coming around? Oh, what you gonna do?
I think I should be with you
A love that's overdue
Oh I think I should be with you Thought I saw you in a stranger's face
Should I call you or should I walk away?
'Round the corner is around the world
Is that you looking at me or am I living a dream? Oh, what you gonna do?
I think I should be with you
A love that's overdue
Oh, I think I should be with you And when I'm lost in a dream, you are all I can see
All alone in the night I'm waiting for you
Every moment I'd die just to look in your eyes
The dream is alive, I'm waiting Oh my, how I try to make you see
That I should be with you
In the distance I hear a sound
Is that you coming around? Oh, what you gonna do?
I think I should be with you
A love that's overdue
Oh, I think I should be with you I think I should be with you
Oh, I think I should be with you
Yeah, I think I should be with you
