

# Dredd Song

## The Cure

Never say it's over, never say the end  
Anytime you stop just start again  
Never say give up, never say give in  
You always have to fight to win However much it hurts, however much it takes  
Believe and all your dreams will all come true  
However hard it gets, however much it aches  
Always believe in me, as I believe in you To never say too late, never say it's done  
Make me know for real you are the one  
One that never turns, never walks away  
One that I can trust to always stay, always stay Never say surrender, never say die  
You only ever get there if you try  
Never say give up, never say give in  
You always have to fight to win However much it hurts, however much it takes  
Believe that all your dreams can all come true  
However hard it gets, however much it aches  
Always believe in me, as I believe in you  
As I believe in you, as I believe in you, as I believe in you Never say if only, never say regret  
Only the weak remember to forget  
Never say it's over, never say the end  
Never say never again However much it hurts, however much it takes  
Believe and all your dreams will all come true  
However hard it gets, however much it aches  
Believe in me, as I believe in you
