The Body

Android Lust

This body belongs to me
To fuck to hurt to kill
And if I choose to give it all up
It's mine until the end
Do you understand?You think you have the right
'Cause you fucked me a couple of times
To tell me what to do
With this damned body of mine
You just don't understandYou say you know it all
Trust and take the fall
And feed me all this shit
About what's good for me at all
You just don't understandGet it, say it, hear it
This time I've got to get you off of my backGet it, say it, hear it
This time I've got to get you off of my backThis body belongs to me
To take it where I will
And if I choose to be unkind
Decision's mine to make
Do you understand?
Do you understand?This body belongs to me
To fuck to hurt to kill
And if I choose to give it all up
It's mine until the end
Do you understand?You think you have the right
'Cause you fucked me a couple of times
To tell me what to do
With this damned body of mine
You just don't understandYou say you know it all
Trust and take the fall
And feed me all this shit
About what's good for me at all
You just don't understand
