Lost It

Circa Waves

will you put your back on me and keep me going
the ground is clinging to my feet
the room is spinning around and round
I need some sorrows to drownso will you come and talk with me and keep me company
i'm right where I need to beyeah we lost it in the people we know
yeah we lost it and blamed it on someone
am i too young to keep this going
am i too young to keep this
yeah we lost it in the people we know
yeah we lost it and blamed it on someone
am i too young to keep this going
am i too young too keep thispushing through the sticks and stones
the conversation
broken boys and broken homes
out on vacation i hate this place they wind up here all the timeso will you come and talk with me and keep me company
i'm right where I need to be
please say something
so will you come and talk with me and keep me company
i'm right where I need to beyeah we lost it in the people we know
yeah we lost it and blamed it on someone
am i too young to keep this going
am i too young to keep thisso it's said
so it's said
so it's said
yeah we lost it in the people we know
yeah we lost it and blamed it on someone
am i too young to keep this going
am i too youngyeah we lost it in the people we know
yeah we lost it and blamed it on someone
am i too young to keep this going
am i too young to keep this going
to keep this going
yeah am i too young
ooh
