Promises

The Presets

All the promises we've been given All the fires that we've feedin' All the lies that we've been livin' in All the promises promises Promises promises Promises we've been given, given, given All the fires that we've feedin', feedin', feedin' All the lies that we've been livin', livin', livin' Am I the only one that's still believin'Wouldn't it be nice if we Could leave behind the mess we're in Could dig beneath these old troubles and return To find something amazingAnd wouldn't it be cool if we Could sail this ship to calmer seas And turn our backs on bush fires burn Leave it on the coastAll the promises we've been given, given All the fires that we've feedin', feedin', feedin' All the lies that we've been livin', livin', livin' Am I the only one that's still believin'I can see you're in it to go I think we knew this day might come I hope you'll find what we never o-oh Could never seem to love But if you find just one reason to return You'll find me open arms All the promises we've been given, given, given All the fires that we've feedin', feedin', feedin' All the lies that we've been livin', livin', livin'

Lyrics provided by https://damnlyrics.com/

Am I the only one that's still believin'Wouldn't it be nice, if weWouldn't it be nice
