Fall

Buckcherry

Maybe I am lost and complicated
Tell me are you sick of it at all?
Tied down, tore up, threw up, held up, sinking
You take me with you even though you're done
Loving you gave me a heart attack
Now I'm this long lost soul
Left with these empty feelings
Now all I want is just to get you back
'Cause it's a long life babe
And I'll be standing here just to see you fall
Are you dealing with a bad connection
Broken down from the love we lost?
Stand up, hold up, back up, roll up, drinking
You take me with you even though you're done
Loving you gave me a heart attack
Now I'm this long lost soul
Left with these empty feelings
Now all I want is just to get you back
'Cause it's a long life babe
And I'll be standing here just to see you fall
Loving you gave me a heart attack
Now I'm this long lost soul
Left with these empty feelings
Now all I want is just to get you back
'Cause it's a long life babe
And I'll be standing here
Loving you gave me a heart attack
Now I'm this long lost soul
Left with these empty feelings
Now all I want is just to get you back
'Cause it's a long life babe
And I'll be standing here just to see you fall
Just to see you fall, just to see you fall, just to see you fall
