

# Stepping Stone (feat. Mark Johns)

## Lemaitre

Greet for the ambition  
Release foreign devotion  
All the starters are gonna lit a start  
(Desperation's gonna, take me all the way)  
(Desperation's gonna)Tripped on my stepping stone  
Got up, and kept on going  
Just me, travelling alone (in desperation)Wake up another day  
I need to find my way home  
Just me, travelling aloneLife can come up creeping  
It takes me by surprise  
Seductive, the base don't just disguiseWith the colored future  
And all that it might hold  
But I'm sure you might have heard  
All that glitters ain't goldTripped on my stepping stone  
Got up, and kept on going  
Just me, travelling alone (in desperation)Wake up another day  
I need to find my way home  
Just me, travelling alone(Desperation's gonna, take me all the way)  
(Desperation's gonna, take me all the way)Life can come up creeping  
It takes me by surprise  
Seductive, the base don't just disguiseWith the colored future  
And all that it might hold  
But I'm sure you might have heard  
All that glitters ain't goldTripped on my stepping stone  
Got up, and kept on going  
Just me, travelling aloneWake up another day  
I need to find my way home  
Just me, travelling aloneTripped on my stepping stone  
Got up, and kept on going  
Just me, travelling aloneWake up another day  
I need to find my way home  
Just me, travelling aloneTripped on my stepping stone  
Got up, and kept on going  
Just me, travelling alone (in desperation)Wake up another day  
I need to find my way home  
Just me, travelling aloneIn desperation, in desperation  
In desperation, in desperation
