

I Will Follow

Art Of Dying

You were in a dream I had
Doing dishes at the laundry mat
And then you smiled at me
You said let's hide and seek
I'm gonna count to three, where did you go?
One step forward, two steps back
So funny I forgot to laugh
You lead me down the garden path
And I will follow, I will follow
You were on a downtown street
Eating peaches in an apple tree
And then you took my hand
This be a marching band
They'll love us in Japan, where did you go?
One step forward, two steps back
So funny I forgot to laugh
You lead me down the garden path
And I will follow, I will follow
One step forward, two steps back
So funny I forgot to laugh
You lead me down the garden path
And I will follow
One step forward, two steps back
So funny I forgot to laugh
You lead me down the garden path
And I will follow, I will follow
