

Freakuency

[Kellee Maize](#)

Feel the feminine coming through
Right brain active and you know what to do
I see a new light and it is turnin blue
My being will be all up inside of you I write love of your taxes
I got some special tactics
The tools are sharp like cactus
I never been sued for mal practice
Do you like my accent
Its not real but fact is it took a lot of practice.
Spinning off my axis
Landing their on venucs
You think i am a genius
Theres energy between us
You ask if i do mean this
My hands not on your penis
Ill fuck you in
Build it now machine is
Ill tell you we could dream this Chorus My poetry is thick
