Everything Changed

Aqualung

Magic drifted through the air
Touching everybody there
You came into my life, so small
Altering, everything changed
I looked into my crystal ball
The future wasn't clear at all
And yesterday was hard enough
At the top of this precipice
Magic settled on the floor
And there she lived forever more
Turning minutes into hours and days
Stumbling, tumbling on
Nothing can be the same as it was
I know, I know
Nothing can be the same as it was
I know, I know
You came into my life, so small
Altering, everything changed
