

# Flamboyant

## Pet Shop Boys

You live in a world of excess  
Where more is more and less is much less  
A day without fame is a waste  
And a question of need is a question of taste You're so flamboyant the way you look  
It gets you so much attention  
Your sole employment is getting more  
You want police intervention You're so flamboyant the way you live  
You really care that they stare  
And the press deployment is always there  
It's what you do for enjoyment You live in a time of decay  
When the worth of a man  
Is how much he can play  
Every day All the public must know  
where you are, what you do  
'Cause your life is a show and You're so flamboyant the way you live  
And it's not even demeaning  
You're so flamboyant it's like a drug  
You use to give your life meaning You're so flamboyant the way you look  
It gets you so much attention  
Your sole employment is getting more  
You want police intervention Every actor needs an audience  
Every action is a performance  
It all takes courage  
You know it Just crossing the street  
well, it's almost heroic  
You're so flamboyant There you are at another preview  
In a pose the artist and you  
To look so loud, may be considered tacky  
Collectors wear black clothes by Issey Miyake You're so flamboyant the way you look  
It gets you so much attention  
Your sole employment is getting more  
You want police intervention You're so flamboyant the way you live  
You really care that they stare  
And the press deployment is always there  
It's what you do for enjoyment You're so flamboyant  
You're so flamboyant
