Ultima Esperanza

The Dresden Dolls

Downloading doves on your fancy computer
You're shooting for love in the dark
Hey boss, you've found her now go instant message
Her name is a pretty good startUltima sits in her bedroom in Texas
And waits for her hamsters to touch
She lost her legs in a car crash three years ago
She doesn't get around muchBut she is hoping someday
Somebody will take her awayNow that you got her address you can send her
A matching attachment and face
Slick rhododendrons you make out of paper
With flowers that never lose shapeYou have a video camera strapped
To your forehead in case she is true
Smiling, rewind as we die in slow motion
As if it's not happening to youDon't be afraid of the dark ages darling
You may have to wait, your lover is coming
With mixes of Marlyn songs
And pictures she took at the throne
Knowing her name is enough, UltimaFoxtrotting, globe trotting under your fingertips
Tapping for oil in vain
Surely you won't think to hold that against me
It's such an unusual nameSomeone is hoping to find
Her limbs in an auction online
Knowing her name is enough
Ultima Esperanza, Ultima Esperanza
