

# Ultima Esperanza

## The Dresden Dolls

Downloading doves on your fancy computer  
You're shooting for love in the dark  
Hey boss, you've found her now go instant message  
Her name is a pretty good start Ultima sits in her bedroom in Texas  
And waits for her hamsters to touch  
She lost her legs in a car crash three years ago  
She doesn't get around much But she is hoping someday  
Somebody will take her away Now that you got her address you can send her  
A matching attachment and face  
Slick rhododendrons you make out of paper  
With flowers that never lose shape You have a video camera strapped  
To your forehead in case she is true  
Smiling, rewind as we die in slow motion  
As if it's not happening to you Don't be afraid of the dark ages darling  
You may have to wait, your lover is coming  
With mixes of Marlyn songs  
And pictures she took at the throne  
Knowing her name is enough, Ultima Foxtrotting, globe trotting under your fingertips  
Tapping for oil in vain  
Surely you won't think to hold that against me  
It's such an unusual name Someone is hoping to find  
Her limbs in an auction online  
Knowing her name is enough  
Ultima Esperanza, Ultima Esperanza
