

Super Down

Super Transatlantic

Super TransAtlantic, I am sick and I am down
Stupefied and tragic, I'm a clown
Electric Omni-presence, I am forced beneath the ground
Exotic, bleeding, toxic, while I drownSome might say I'm beautiful
Some might say I'm notSuper Down
I'm feeling superdownShaking like a spastic and I can't control my sound
Feeling kinda weak, I'm spinning round
Drinking in the desert yet I cannot find my way
Unstable and neurotic, I'm insaneSome times your high
Some times you lieFeeling like a leper at the first day of new school
Having lost my balance I'm a fool
Laughing, teasing, taunting, 'cause they don't see things my way
I'm really wishing this would go away
