

# Reach for the Sky

S

I forgot just what it is to want  
And I forget just what it is I always wanted  
I forget the last time that I didn't cry over absolutely nothing at all  
And this is getting so old  
And I am getting so old  
And this is getting so old  
And you're just getting so old  
I always thought if I was about to leave  
I'd have something more to say  
I don't want your revelations  
I got stuck here on my own  
Didn't someone say that things just have to get better?  
'cause this is getting so old  
And I am getting so old

---

And you lost everything you had  
And you lost everything you had  
{reach for the sky}

---

If it makes you feel better  
{reach for the sky}  
Do you remember what you want  
And is it really any better?  
Is it really any better?  
Do you feel a whole lot better?  
Is this really any better?

---
