The Time Comes

Nina Gordon

I wait for the day to break me I wait for the day to break me
I look up to the sky I look up to the sky
I look back on my life I look back on the life that graced me
Gratefully When you were mine
You were mine
The times comes... The time comes x 6
And then it goes And then it goes
Then it goes away Then it goes away
Don't try to read the silence Don't try to read the silence

Don't try to live it down And don't try to live it down
'cause I learned a thing or two 'cause I've learned a thing a two
About patience About patience
And I have found And I've found
Repeat chorus
Repeat first verse
Repeat chorus
