

I Love Life

Dan Black

European human being
Drugs, drink, psychic healing
Flesh nipping, blood sipping
Sitting in a circle sharing feelings
Not ill, take pill, roll up and deal

In head hole to feel until
People blur, people slur

Relax, listen to the Hi-fi purr oh oh oh
You're a Popsicle bubble but I love life
You're a Popsicle bubble but I love life
You're a Popsicle bubble but I love life
Endless trouble but I love life oh oh oh

Superstitious, so suspicious
Watching TV, doing dishes
Switch flipping, mouse clicking
Iron squeezing Instead of living

Skipped out rip this fake
live of my life movie clip
People blur, people slur

Relax, listen to the AC roar Oh oho
You're a Popsicle bubble but I love life
You're a Popsicle bubble but I love life
You're a Popsicle bubble but I love life
Endless trouble but I love life Oh oh oh

European human being
Drug/Drink/Psychic healing
Flesh nipping, blood sipping
Sitting in a circle sharing feelings
Not ill, take pill, roll up
In head hole to feel until
People blur, people slur

Relax, listen to the Hi-fi purr oh oh oh
You're a Popsicle bubble but I love life

You're a Popsicle bubble but I love life
You're a Popsicle bubble but I love life
