A Man You Would Write About

4Him

Oh Oh OhFrom the time time began
You always chose a man
To lead the people safely by your way
To be a voice and echo what You sayLike David or Abraham
The Word is full of such men
But if the Bible had no closing page
It still was being written to this day
OhI wanna be a man that you would write about
Oh a thousand years from now that they could read about
The servant of choice in whom you found favour
A man who heard your voiceGenerations always its my prayer
They would look back and say
Oh to have that kind of faith and love
What a solid man of God he was
Yeah yeahI wanna be a man that you would write about
Oh a thousand years from now that they could read about
The servant of choice in whom you found favour
A man who heard your voiceOh Oh OhI wanna be a man that you would write about
Oh a thousand years from now that they could read about
Your servant of choice in whom you found favour
A man who heard your voiceI wanna be a man that you would write about
Oh a thousand years from now that they could read about
Your servant of choice in whom you found favour
A man who heard your voice
Heard your voice
