Cave

Muse

Leave me alone, it's nothin' serious
I'll do it myself, it's got nothin' to do with you
And there's nothin' that you could doYou can see it and you can almost hear it too
You can almost taste it, it's nothin' to do with you
And it's still nothin' that you can doSo come in my cave and I'll burn your heart away
Come in my cave and I'll burn your heart awayPlease close your ears and try to look away
So you'll never hear a single word I say
And don't ever come my wayLeave me alone, it's nothin' serious
I'll do it myself, it's got nothin' to do with you
And there's still nothin' that you could doSo come in my cave and I'll burn your heart away
Come in my cave and arrest me for my mistakes
