

# Depths

## Norock

the access to new excesses excluding environment virtual  
running be sure there's no return page by page - deeper edge a  
crash with the ceiling the context cries contact denied  
interaction scientifically based voyeuristic satisfaction in  
futuristic ambience access from outside to a parallel light  
constant development of a personal environment i buy heaven a  
short time sky the only thing that leaves a cold sunshine i  
    felt deep inside new dimensions rise contact denied
