

Every Night I Say a Prayer

Little Boots

Love is darkness blinded by the light
Let it lead you, listen for the cry
I will find you, every time I turn you're there
(You're there)I have seen into the future
I want you to take me there
I have seen into the future
Every night I say a prayer
Every night I say a prayerHoping for forgiveness
We all make mistakes
I wanna walk beside you
I've gotta keep the faithNow that I found you
Never gonna let you goI have seen into the future
I want you to take me there
I have seen into the future
Every night I say a prayer
Every night I say a prayerOh, oh
Every night I say a prayer
Every night I say a prayerOh, oh
Every night I say a prayer
Every night I say a prayerI know where we're going
I know where we're goingI have seen into the future
I want you to take me there
I have seen into the future
Every night I say a prayer
Every night I say a prayerOh, oh
Every night I say a prayer
Every night I say a prayerOh, oh
Every night I say a prayer
Every night I say a prayerOh, oh,
I want you to take me there
I know where we're goingOh, oh,
I want you to take me there
I know where we're going
