

# A Needle In a Haystack

**Fred Astaire**

It's just like looking for a needle in a haystack  
Searching for a moonbeam in the blue  
Still I've got to find you It's just like looking for a raindrop in the ocean  
Searching for a dewdrop in the dew  
Still I've got to find you I'll roam the town in hope that we'll meet  
Look at each face I pass on the street  
Sometimes I feel the beat of your feet  
But it's just my imagination Though it's like looking for a needle in a haystack  
Still I'll follow everything you do  
'Cause I've got to find you
