(Verse 1)

I wake up in the morning and I yawn and stretch  
Lace up some new J's now Im new born fresh  
Got the 501 jeans creased starched and pressed  
Expensive taste name brand hat and shirt on my chest  
Got the boppers going crazy pull up in my Mercedes  
Knocking down the ladies from Pasadena to Katy  
Most of them dudes hate me cuz I sweet talking they lady  
but dont bring her around me if your game aint all gravy  
No time for games my mind on stacking change  
Tryin to flip this paper and change this chevy to a range  
Screen fall like rain as I maneuver the grain  
I pull up 3 screens 4 twelves 5 swangs  
Cadillac convert while my trunk do the jerk  
and the speakers in the back are drumming like Neil Peart  
haters on high alert 3 ounces in the squirt  
Perc 10s for dessert and Pimp C on my shirt  
I I come around the corner so slow alert  
When wood grain get worked all feelings get hurt  
Gorilla poke swangers all up under the skirt  
First place in the car show in the back getting slurped  
I step on the dirt and stop traffic like a school bus  
All eyes on me Im fly as a flock of ducks  
Chasing these big bucks Haters can suck nuts  
They flaky as pie crust and sensitive as an Itouch  
Put that on the hood the corner and the block  
TV Johnny put 35 carats up on the watch  
100 til my heart stops running this paper chasing  
Draped in expensive taste my music is slow pace  
Prada is on the face partner thats shades

And if its aint 84s and vogues than its blades  
Crisp new levis grinding since I was knee high  
    Need I say mo' fo sho you know we fly  
    Jordons on the toes when you see Paul Wall
