Model

Simply Red

Looking at yourself in the mirror, baby
Telling yourself to be up this morning
Holding in your hand another mirror, baby
One or two lines for confidence
Pretty little girls climb to the top
(The raging takes her)
Down down down
Down down down
Down down down
(Lonely baby)
Down down down
Eating alligator for dinner, baby
A restaurant that made it to the top
Smoothies always get to pay for dinner, baby
The food was the last thing you came for
Pretty little girls climb to the top
(The raging takes her)
Down down down
(See them fall)
Down down down
(You can see them fall down)
Down down down
(Fall)
Down down down
Fall down
Pretty little girls climb to the top
(The raging takes her)
Down down down
(See them fall)
Down down down
(Look at them fall)
Down down down
Down down down
(You can see them)
Down down down
(See them fall)
Down down down
(You can see them)
Down down down

(You can see them fall)
Down down down
(See them)
Down down down
(You can see them fall)
Down down down
Down down down
(It's lonely)
