

# Speak Up

## POP ETC

all my lovers surround me like virgins clean today  
waste deep in the water pushing my body away  
oh what lengths we go to put VIRGINS LYRICS the past away  
how many drops will you squeeze out to explain what happened one day?

one of them stayed behind and trailed me from afar  
i saw her eyes lit up like colors in the dark  
but when our gazes met i was a half a world away  
it still shortens my breath as i turn to say ICS

when we meet another way  
you won't recognize my face  
when we meet one way or another  
you won't speak up, speak up, speak up

one day it soothes me the next it bleeds me dry  
it plays out like a lifetime before the morning light  
how beautiful it was to be anything at all  
but somehow it strikes me the timing came a bit off

when we meet another way  
you won't recognize my face  
when we meet one way or another  
you won't speak up, speak up, speak up
