Go Humans

Bad Astronaut

Go human time bombs
Go robotic believers
Protect your only war reservesGo great destroyers
Killers of holy nurture
Legacy of genocide rulers
And tyrants'Cause God do we have to be
Perversions of our innate pride and arroganceHave to learn
Have to learn
Have to learn
We have to swallowGo humans go destroyers
Go until it's gone(What would it cost you)
(To face your thoughts)
(You needed your sovereignty and)
(Your precious things hurdle everything)God do we have to be
Competitors to be the worst in historyCannot learn
Cannot learn
Cannot learn
We cannot store itGo humans go destroyers
Go untill it's gone
