On My Own Time (write On!)

Gym Class Heroes

I wish I could unzip my skin
Take it off, just to take a walk
But I can't do it
I don't think, I'll make it on my own
That's when I take out my pen
And I wage it all, turn the page and fall
It just comes natural
I'm gonna make it on my own
I just need time to walk it off
But I can't do it
I'll write it on my own time
Hey, look I made it on my own
I know she thinks that I don't try
But I realize that I can do better
Write, write on, write, write on
Write, write on, write, write on
Makin' a mess, as I progress
No time to cry about it, do better
Write, write on, write, write on
Write, write on, write, write on
I wrote the greatest lines at the strangest times
Now it's payin' off, but I still feel lost
'Cause I can't do it
I don't think I'll make it on my own
Somewhere between now and pacifiers
I changed my name to free

Plush equals safe to me, so I'm livin' dangerously
I'm gonna make it on my own
I just need time to walk it off
But I can't do it
I'll write it on my own time
Hey, look I made it on my own
I know she thinks
But I realize that I can do better
Write, write on, write, write on
Write, write on, write, write on
Makin' a mess, as I progress
No time to cry about it, do better

Write, write on, write, write on
Write, write on, write, write on
Write on, write it on your own time
Write on, write it on your own time
Write on, write it on your own time
Write on, write it on your own time
Write on, write it on your own time
Write on, write it on your own time
Write on, write it on your own time
Write on, write it on your own time
Write on, write it on your own time
Write on, write it on your own time
Write it on your own time
