Nuclear Boomerang

Pretty Maids

Are you ready for the big blast
Hiroshima flashback
The doomsday dirtbags
Nuclear garage sales
Murder on a big scale
Armageddon horror talesAnd whoever's gonna lit the glow
Cause the inferno
Now does anybody face the truth
Until the sun goes down for goodWhen the vampires of violence
The leeches of war
They invoke the giants
The final straw
When they unleash the lions
The world sets on fire
The comedown of man
Nuclear boomerangPower tripping lunatics
Nine lives and a deathwish
Craving the apocalypse
Playing whit the big toys
Fat man little boy
Petrified paranoidAnd nobody's gonna save you
now
Cause nobody's gonna be
around
In the shadows of
the aftermath
Only roaches will adaptWhen the vampires of violence
The leeches of war
They invoke the giants
The final straw
When they unleash the lions
The world sets on fire
The comedown of man
Nuclear boomerangWhen the vampires of violence
The leeches of war
They invoke the giants
The final straw
When they unleash the lions
The world sets on fire

The comedown of man
Nuclear boomerang
When the a-bombs are flashing
We're melting away
We die by the masses
It's the end of day
And we crawl from the ashes
And back to the caves
The comedown of man
Nuclear boomerang
