

It Never Rains (In Southern California)

Tony! Toni! TonÃ©!

It never rains in southern California I'll see you when I get there...I haven't seen your face in a year
I can't wait 'til I get there
just to kiss and squeeze and hug
and girl you know the rest
'cause they tell me...It never rains in southern California and they tell me...It never rains in southern
California Maybe I'll take the flight out tonight
and you can pick me up 'bout eight
I don't know what airline girl
but I know it won't be late
'cause they tell me...It never rains in southern California they tell me...It never rains in southern California Now I
can't sleep at night
without your eight by ten by my side
that day will come
for us to be together
I'm not worried 'bout a thing
not even stormy weather...baby, baby, baby, babe Now it may be cold on the east coast
but on the other side of town it never rains We have so much to talk about
a lot a catchin' up to do
I'll bring the diamond girl
because I'm so into you
'cause they tell me...It never rains in southern California they tell me...It never rains in southern California Now
since I'll be here at your place
lets take a weeks trip for two
We don't have to go to far
just as long as I'm with you
'cause they tell me...It never rains in southern California and they tell me...It never rains in southern
California Can we just be alone
without those other strangers
calling your phone
now I don't want to be
that selfish kind of guy
but tonight let me take you
on a natural high just me and you alone Now it may be cold (maybe)
on the east coast
but on the other side of town it never rains...Whoo-hoo
Whoo-hoo Now it may be cold (maybe)
on the east coast (maybe)
but on the other side of town it never rains...I'll see you when I get there...It never rains in southern California I
wanna be right there with you It never rains in southern California There's nothing else I'd rather do It never rains
