Wavelength

Lastlings

I can feel it for my own
Every inch its in my bones
The feeling starts to grow
Drowns me deep below
See you in the shadows
See you moving slow
Your fear starts to flow

You make me crazy
My mind is hazy

You want it she got it
You want it she got it
You want it she got it
Slow down
Wake up

I can hear it in the dark
Every inch its in my bones

You make me crazy
My mind is hazy

You want it she got it
You want it she got it
You want it she got it
You want it she got it
Slow down
Wake up
Slow down
Wake up
Slow down
Wake up
