

# Get This

## Jagged Edge

J.E. y'all

Girl, I love the way you

Love when you make them sounds, yeah

That's how it's goin' down

I love the way you

It's for you, yeah, come on

Said I love when you make that sound

Love when you callin' out my name

Lemme hear you say, get this, get this

And I love when you do that thing with your lips

When you callin' out my name

Lemme hear you say, get this, get this

Anything I say do, she do

She do it just how I like

We get it crackin' every night in my bedroom

I love it when she grab my neck

And says, "Get this boy, it's yours now"

And I can't lie whenever I hear that girl

I'm goin' crazy, crazy

Puttin' in work like someone paid me, paid me

See, they can't take me away, away from you

I was put here on this earth for you

That I know is true, yeah, yeah, yeah

Said I love when you make that sound

Love when you callin' out my name

Lemme hear you say, get this, get this

And I love when you do that thing with your lips

When you callin' out my name

Lemme hear you say, get this, get this

Baby everything that I say is true

I stick to you like glue

Girl, me you can't lose, nothin' like you

[Incomprehensible] so irreplaceable, just lettin' you know

You're deservin' the world, let me give it to you

Ooh, girl you can go far away and away and away

I'll be sittin' here waitin' on, waitin' on, you, you

Whatever it takes to hold you down, I got you, girl

It's the many little things, I love you

Said I love when you make that sound

Love when you callin' out my name  
Lemme hear you say, get this, get this  
I love when you do that thing with your lips  
When your callin' out my name  
Lemme hear you say, get this, get this  
I love when you make that sound  
Love when you callin' out my name  
Lemme hear you say, get this, get this  
And I love when you do that thing with your lips  
When you callin' out my name  
Lemme here you say, get this, get this  
(Girl, you be on my)  
You be on my mind like  
(Every time)  
Every time that I, I  
Tell your girls they could get the hatin'  
When I'm not thinkin you that's just time wasted and  
(You be on my)  
You be on my mind like  
Every time I, I do  
Any little thing, I'm not lettin' you go  
See girl, I just don't know  
When I'ma see you again  
All I know is that I'm willin'  
To do it like this again  
When you say, "Boy, come get this"  
I'll be there in a second  
I'll make a beat line where your at  
I'll be there five minutes, flat, just to get that  
Said I love when you make that sound  
Love when you callin' out my name  
Lemme hear you say, get this, get this  
Girl, I love when you do that thing with your lips  
When you callin' out my name  
Lemme here you say, get this, get this  
Love when you make that sound  
Love when you callin' out my name  
Lemme hear you say, get this, get this  
I love when you do that thing with your lips
