Coming Around

Ian Moore

Driftin' behind the sun, floatin'
Watch the satellites pass slowly
Why do they keep on spinning, flying?
Why don't they ever come down?Flyin' close to the sun, lonely
I watch the hours go by slowly, yeah
Why do they keep on passin', turnin'?
Fillin' the space in between'Cause in between
Is the time that it takes
Till it's comin' aroundSo daylight undo the night
Stunned and sleepin'
She tricked you and turned you around
Your crown is broken, broken, brokenFallin' into the sun, meltin'
Watch the world fall away to nothin'
Why is this light so bright, it's blindin'?
Lightin' the darkness betweenWhy do I go on dreamin', fallin'?
Into the space in between'Cause in between
Is the time that it takes
Till it's comin' aroundIs the time that it takes
Till it's comin' 'round
Is the time that it takes
Till it's comin' around
