

October Came Late

Mainstay

And all of the things you wanted
Were just outside your atmosphere
And if you could just have them
You would be happy apart from me
And it took a while but it was more than worth the wait
Rain was falling
when you said, "I'm leaving"
I had to watch you go
I want this fall to change
I never heard you say that you were wrong
You picked out your path
But didn't you ever wonder if I was okay?
And doesn't the guilt eat up your mind?
I just thought I'd ask
And it took a while but it was more than worth the wait
And this year October came
Rain was falling when you said, "I'm leaving"
I had to watch you go
I want this fall to change
I never heard you say that you were
Say that you were wrong
All these questions hid in me so long
I just want to hear you say you were wrong
All these questions hid in me so long
I just want to hear you say you were wrong
The rain was falling when you said, "I'm leaving"
I had to watch you go
I want this fall to change
I never heard you say that you were
Say that you were wrong, say that you were wrong
