

# Shooting Star

## Black Stone Cherry

I've seen your evil ways  
And your corrupting mind  
    Lay the hourglass over  
So we don't waste our time  
Now throw your burdens out  
    And throw your heart to me  
    I don't know what'll come  
We'll have to wait and seeLike a shooting star  
    And you're falling from me  
        As you fade away  
My heart skips a beatI know you're down on love  
    But we can love again  
        So open up  
        Come on invite me in  
Now throw your burdens out  
    And throw your heart to me  
    I don't know what'll come  
We'll have to wait and seeLike a shooting star  
    And you're falling from me  
        As you fade away  
My heart skips a beatI've seen your evil ways  
    And your corrupting mind  
        Lay the hourglass over  
So we don't waste our timeLike a shooting star  
    And you're falling from me  
        As you fade away  
My heart skips a beatI'm a howlin' wolf  
    You're a shooting star  
        Yes I am  
    You're a shooting star
