

Dance With Me

[Clay Shelburn](#)

Dance With Me Tell me your name pretty lady come on
Wont you dance with me
The way that you sway till the rhythm is gone
Is a sight to see Can I steal you away from your table of friends
For just a song or two?
Yeah the band is playing some kind of wonderful
For me and you I wanna spin you around,
Sweep your feet off the ground
And be the reason you enjoyed your night on the town
Baby all I want is a chance, won't you dance with me Come on dance with me
Take a chance with me
Yeah yeah yeah, come on dance with me It the end of the night
And we're feeling just right,
I've got you where you want me to be
Baby I've enjoyed our dance,
Take a chance with me come on dance with me
Take a chance with me.
Yeah yeah come on dance with me
