In My Arms

Gentleman

I got this for you girlSo much things we've been waiting for

Obstacles come around what dem hating for

You and I together there's no breaking 'cause we overjoyedWhen I hold you in my arms

I'm so captivated so fascinated by your charm

And no one can break it and Jah Jah will take us through the storm

And even when it's cold outside I'll be there to keep you warmHey baby girl you know that I love you

Hey can you feel the chemistry when I hug you

You know I'll never put another girl above you

And I know I'll never find another love like you

And if I'm gone for a minute or few

Nobody think me ago leave you out in the dew

I'll never leave you lonely girl I'll never make you blue

You know I'd love to Hold you in my arms

I'm so captivated so fascinated by your charm

And no one can break it and Jah Jah will take us through the storm

And even when it's cold outside I'll be there to keep you warmRemembering those days what we call the undercover time

We couldn't make a link we couldn't say see you another time

Back in the days when I wish you were mine

And I would have been in custody if loving was a crime

We persevere and now we push it into overtime

Songs and secret letters add up more than to a thousand lines

Ring pon your finger now look how it a shine I'm glad to sayWhen I hold you in my arms

I'm so captivated so fascinated by your charm

And no one can break it and Jah Jah will take us through the storm

And even when it's cold outside I'll be there to keep you warmYou re beautiful and skin soft like a cotton

For you I fight a war I woulda fight any battle

And nuff a try fi tear we down but that nuh go happen

And this love won't be forgotten

We live the life we love and love the life we a live

And what's interesting about us we learn to forgive

We coming from a far and now we cross over the bridge and

That's just the way it is So much things we've been waiting for

Obstacles come around what dem hating for

You and I together there's no breaking 'cause we overjoyedWhen I hold you in my arms

I'm so captivated so fascinated by your charm

And no one can break it and Jah will take us through the storm

And even when it's cold outside I'll be there to keep you warm
