

# Any Day Now

**Burt Bacharach**

Any day now, it's gonna start my real life  
And any day now, everything is gonna' be alright  
    Any day now, life's gonna get real good  
And somehow, life will be like I said it would  
    Any day now, mark my word  
    Any day now, I will be heard  
        Any day now, my ship  
        Will finally come in  
    Any day now, I'm gonna jump right in  
    And any day, now my destiny will begin, sure  
    And until then I'll just be here wasting my time  
        But, don't you worry, I'll be just fine  
    Any day now, mark my word  
    Any day now, I will be heard  
        Any day now, my ship  
        Will finally come in  
    Any day now, mark my word  
    Any day now, I will be heard  
        Any day now, my ship  
        Will finally come in  
    Any day now, mark my word  
    Any day now, I will be heard  
        Any day now, my ship  
        Will finally come in  
    Any day now, mark my word  
    Any day now, I will be heard  
        Any day now, my ship  
        Will finally come in
