I Don't Envy You

Prime STH

Accident, I promise you, I did not mean to
Always the same, I'm just that kind that never learns
Never learnsEverything I touch, breaks and turns to dust
Everything I try to grow, it just decaysI know that it's true, I know it's not you
I know that it's me and I don't envy you
I just never learn, I just never learnDown the drain, I didn't mean to drag you with me
Always the same, always the same
I'm just that kind that never learns
Never learnsEverything I touch, breaks and turns to dust
Everything I try to grow, just decaysI know that it's true, I know it's not you
I know that it's me and I'm not gon' envy you
I know that it's true, I know it's not you
I know that it's me and I'm not gon' envy you
I just never learn, I just never learnI promise you, I promise you, I tried to be
Everything that you wanted me to be
I promise you, I promise you, I tried to be
Everything that you wanted me to beI know that it's true, I know it's not you
I know that it's me and I don't envy you
I know that it's true, I know it's not you
I know that it's me and I'm not gon' envy you
Not you, yeahI promise you, I promise you, I tried to be
Everything that you wanted me to be
I promise you, I promise you, I tried to be
Everything that you wanted me to be
