

# Trouble

## The Rakes

Tho I been thinking about it, I live with the idea  
The way we where would last forever  
Yeah it all seemed pretty clear.  
But when the foundations shook  
And the cracks started to appear  
Saw the light in each others eyes  
As the whole world disappeared.

[Chorus 1]

My history has come and gone  
I'll drive late at night  
The only car on empty streets  
No welcome sun in sight

[Chorus 2]

If its trouble that you're looking for,  
Its trouble that you'll find.  
Sometimes trouble finds you no matter where you hide

We got back from the party on a comedown for a week  
Where we out there making history? Or was it just a lack of sleep?  
It seemed like we were waiting in the wings to take our bow...  
The outsiders are whispering this is our moment now.

[Chorus 1: x2]

My history has come and gone  
Sometimes I think I see  
Your face in the rear view mirror, yeah,  
Looking back at me

[Chorus 2: x2]

It was important to us  
To do more than just survive  
Surviving sometimes took up too much of our time

[Chorus 2]
