Nothing Left to Say

Slateface

What can I say there's nothing left
Your actions shattered all your words
What you did to me
Blindsided and confused
And you went off
Wreckage remains

You said don't worry
You said it's fine
You said you'll be alright
You said I'll never
You said I love you
Now there's nothing left to say

I remember that time
It burns in my mind
And your betrayal continues today
Though I can't see your eyes I know pain cuts deep
And there's only One way this pain will go away

You said don't worry
You said it's fine
You said you'll be alright
You said I'll never
You said I love you
Now there's nothing left to say

The touch of your hand
Cold and Icy
Your embrace peircing through skin
The taste of your lips
dripping with lies
A mask of love that never should have been
Betrayed with a kiss
You're ok, you're ok
Betrayed with a kiss
You're ok

You said don't worry

You said it's fine
You said you'll be alright
You said I'll never
You said I love you
Now there's nothing left to say
