All Eyes on You

St. Lucia

I will never take back,
The words that I said,
That I will always come back to you,
and even in the meantime I will always stand by,
A mirror on the shelf,
Call you in the nighttime,
Call you in the daytime,
I can't face up to you.'Cause I hope we will never have to take back,
What was said in the night,
I hope that I'll always have,
All eyes on you,
Know that I'll take what I can,
When you are there standing by,
Soft-spoken in the dead of night,
All eyes on you.
