Out On The Road

Morblus

I never wanted to be taken
But now I'm feelin' so left out
So I don't care where I go
I'm leavin', yeah I'm leavin'
Got about a half a tank left
That could do but only if I'm lucky
But either way
I'm leavin', oh I'm leavin'
On my way to paradise
Little voices don't think twice
And don't look back if you want things to change
Ah, Ah
Guess I'll have to love you from the far
Ah
It's okay 'cause all I need's my car
Out on the road, out on the road
(But with what I will go)
Out on the road, out on the road
Oh, oh but I'll go
Out on the road, out on the road
(But with what I will go)
Out on the road, out on the road

Takes about a week to get there
Maybe two if I stop to sleep it off here
But I can't sleep
So I'm leavin', yeah I'm leavin'
Keep on drivin' through the night
I find myself know slice of life
To show me that I'm headin' the right way

And ah, ah
Guess you'll have to love me from the far
Ah
It's okay 'cause all I need's this car
Out on the road, out on the road
(But with what I will go)
Out on the road, out on the road
Oh, oh but I'll go

Out on the road, out on the road
(But with what I will go)
Out on the road, out on the road
Oh, oh but I'll go
Out on the road, out on the road
(But with what I will go)
Out on the road, out on the road
