

# Recover

## The October Game

    Been torn apart  
    Got so many scratches and scars  
    Maybe they won't all go away  
        But they'll fade  
    Maybe time can mend us together again  
    It's not what we've done but how far we've come

    [Chorus:]  
    We will recover  
    The worst is over now  
    All those fires we've been walking through  
        And still we survived somehow  
    We will recover  
The worst is behind and it hurts but in time I know that we will recover

    Got so much to lose  
    Seems I've lost my power to choose  
    What to love and when to let go  
        That all changed  
    Get bitten once and then you're afraid  
        What a waste  
    Look what we've done  
        How far we've come

    [Chorus]  
  
    Everybody's got their own reason to cry  
    Everybody fights but not everyone survives  
    Everybody searches, not everybody finds  
    And I'm still in recovery, help me make it out alive

    [Chorus]
