

Shut Up (Move On)

Connie Talbot

You always verbalise
the doubts I wanna hide
my dreams get criticised
but you're just a voice in my mind...But you're not getting in my way...So shut up move on, stop saying what
you want for me
I'll live my life at 100,000 feet
I'm tired of all your words, my actions speak louder to me
don't make a sound
just shut up, shut up...The noise gets me tongue tied
cause I don't believe in your lies
no space to compromise
gonna see the world through my own eyes...And nothing's getting in my way...So, shut up, move on, stop
saying what you want for me
I'll live my life at 100,000 feet
I'm tired of all your words, my actions speak louder to me
don't make a sound...just shut up, shut up,
just shut up, shut up...You say I'm not a kite, I'll fly
you say I'm not a star, I'll shine
You think I'm wrong, I know I'm right
(I'm my own mind)Shut up
I'm tired of all your words, my actions speak louder to me
don't make a sound
so shut up, let's get on, start dreaming up my dreams with me
let's take a leap of faith from 100,000 feet
I'm done with all these words, cause actions speak louder to me,
don't make a sound...Just shut up, shut up, just shut up, shut up...
(I'm my own mind)You say I'm not a kite, I'll fly
you say I'm not a star, I'll shine
You think I'm wrong, I know I'm right
I'm my own mind...
