Anything for Love (Acappella)

Reina

Can you tell me how it feels
To want something, make it real
Can you tell me how to express
What I need to give me happinessI know it hasn't been easy
I know it's been rough
But love always conquers over allI would live for love
I would cry for love
Sacrifice for love
I'd give my life for love
I'll do anything for your loveThis journey, it has been long
Kept on moving
Always getting strong
I can't imagine
Living this life without you
Your heart will always be trueI know, it hasn't been easy
And I know that it can be rough
But love it will always conquer over allI would live for love
I would cry for love
Sacrifice for love
I'd give my life for love
I'll do anything for your loveLove will always guide the way
Bring it through another day
Love can show me the road
That leads me to you
That leads me to youI would live for love
I would cry for love
Sacrifice for love
I'd give my life for love
I'll do anything for your loveAnd I would live for love
I would cry for love
Sacrifice for love
I'd give my life for love
I'll do anything for your love
