Everytime I Hear That Song

Hank Williams, Jr.

I heard cowboys should never cry
But there are some things that bring tears to my eyes
Some old movies they've shown, some old people all alone
And everytime I hear that songEverytime I hear that song
I think of someone who is gone
And the hurtin' starts comin' on real strong
Everytime I hear that songWhat makes big old boys like me get down on bended knee?
And today's girl who's moving ahead
Stay at home all night crying in bed
It's those old loves that linger on
Just like some of those good old songsEverytime I hear that song
I think of someone who is gone
And the hurtin' starts comin' on real strong
Everytime I hear that song
